The Train Is Coming.....

Imagine Martin Luther King Jr. Way South reduced to one lane each direction. Add to that congestion as utilities are relocated, buildings demolished and Link light rail track and stations are constructed beginning this summer, to be finished by 2009.

How are we going to get through this? Alternate north-south routes of Rainier Avenue, Beacon Avenue and Seward Park Avenues are already congested during peak hours. Side streets might be an option. Buses are going to be essential to keep us moving.

The Rainier Beach Community Club has invited Mr. Doug Johnson, Metro Transit Planner, Service Planning, to tell the community how Metro plans to maintain quality service on all Southeast routes throughout the construction period.

All area residents are invited to attend. Coffee, juice and donuts provided!
